

Med hvilke radiatorventiler er Hihome Smart Radiator Thermostats kompatibel?

Kontroller, at din radiator er udstyret med en termostatventil. Det er nemt at afgøre. Hvis du i øjeblikket har en manuel termostat radiatorventil (TRV), kan du bruge Hihome Smart TRV i 90% af tilfældene. Når du har en simpel manual ON / OFF dækning, kan du ikke bruge en TRV.

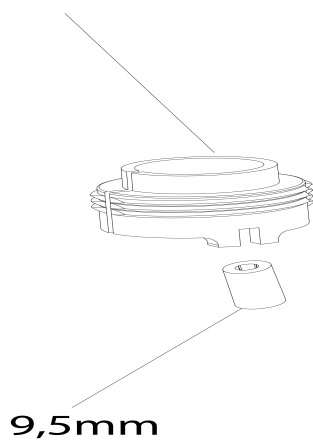

Hihome Smart Radiator Thermostat er baseret på den almindeligt anvendte M30x1.5-tråd. Du kan erstatte eksisterende TRV'er af følgende mærker uden behov for en adapter:
